SHARENOW 

MORE FLEXIBILITY THAN EVER

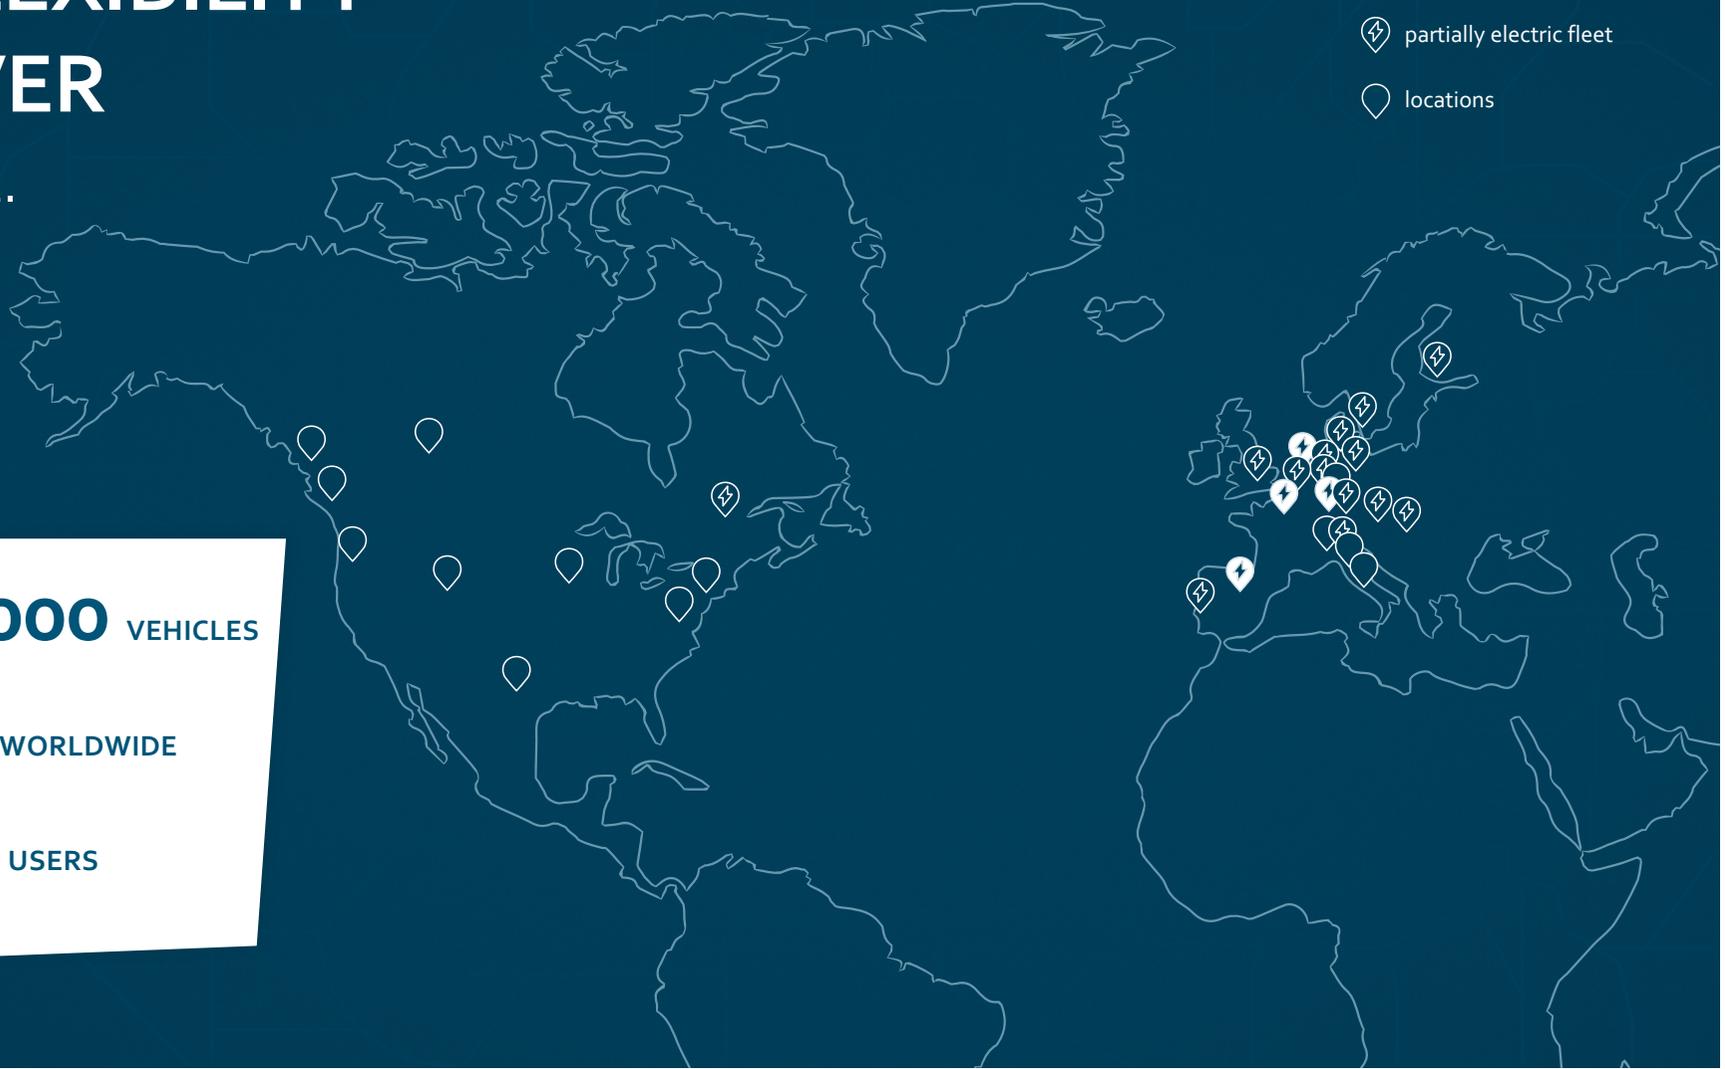

WORLDWIDE.

-  pure-electric fleet
-  partially electric fleet
-  locations

 **> 20,000** VEHICLES

 **31** CITIES WORLDWIDE

 **>4M.** USERS

SHARE NOW DRIVES SUSTAINABILITY.

>3,200 ELECTRIC VEHICLES

18 LOCATIONS
4 PURE-ELECTRIC FLEETS

EVERY DAY OVER
12,000
SHARE NOW TRIPS
ARE ELECTRIC.

NOW WE
**LEVERAGE
ELECTRIC
MOBILITY.**

FIRST CONTACT

INFRASTRUCTURE

TESTING FIELD

FIRST CONTACT

- **SHARE NOW** makes electric mobility easily accessible without obligation.
- Car sharing thus reduces people's reservations about using electric mobility.
- By providing a first contact, we can enhance acceptance among the people.

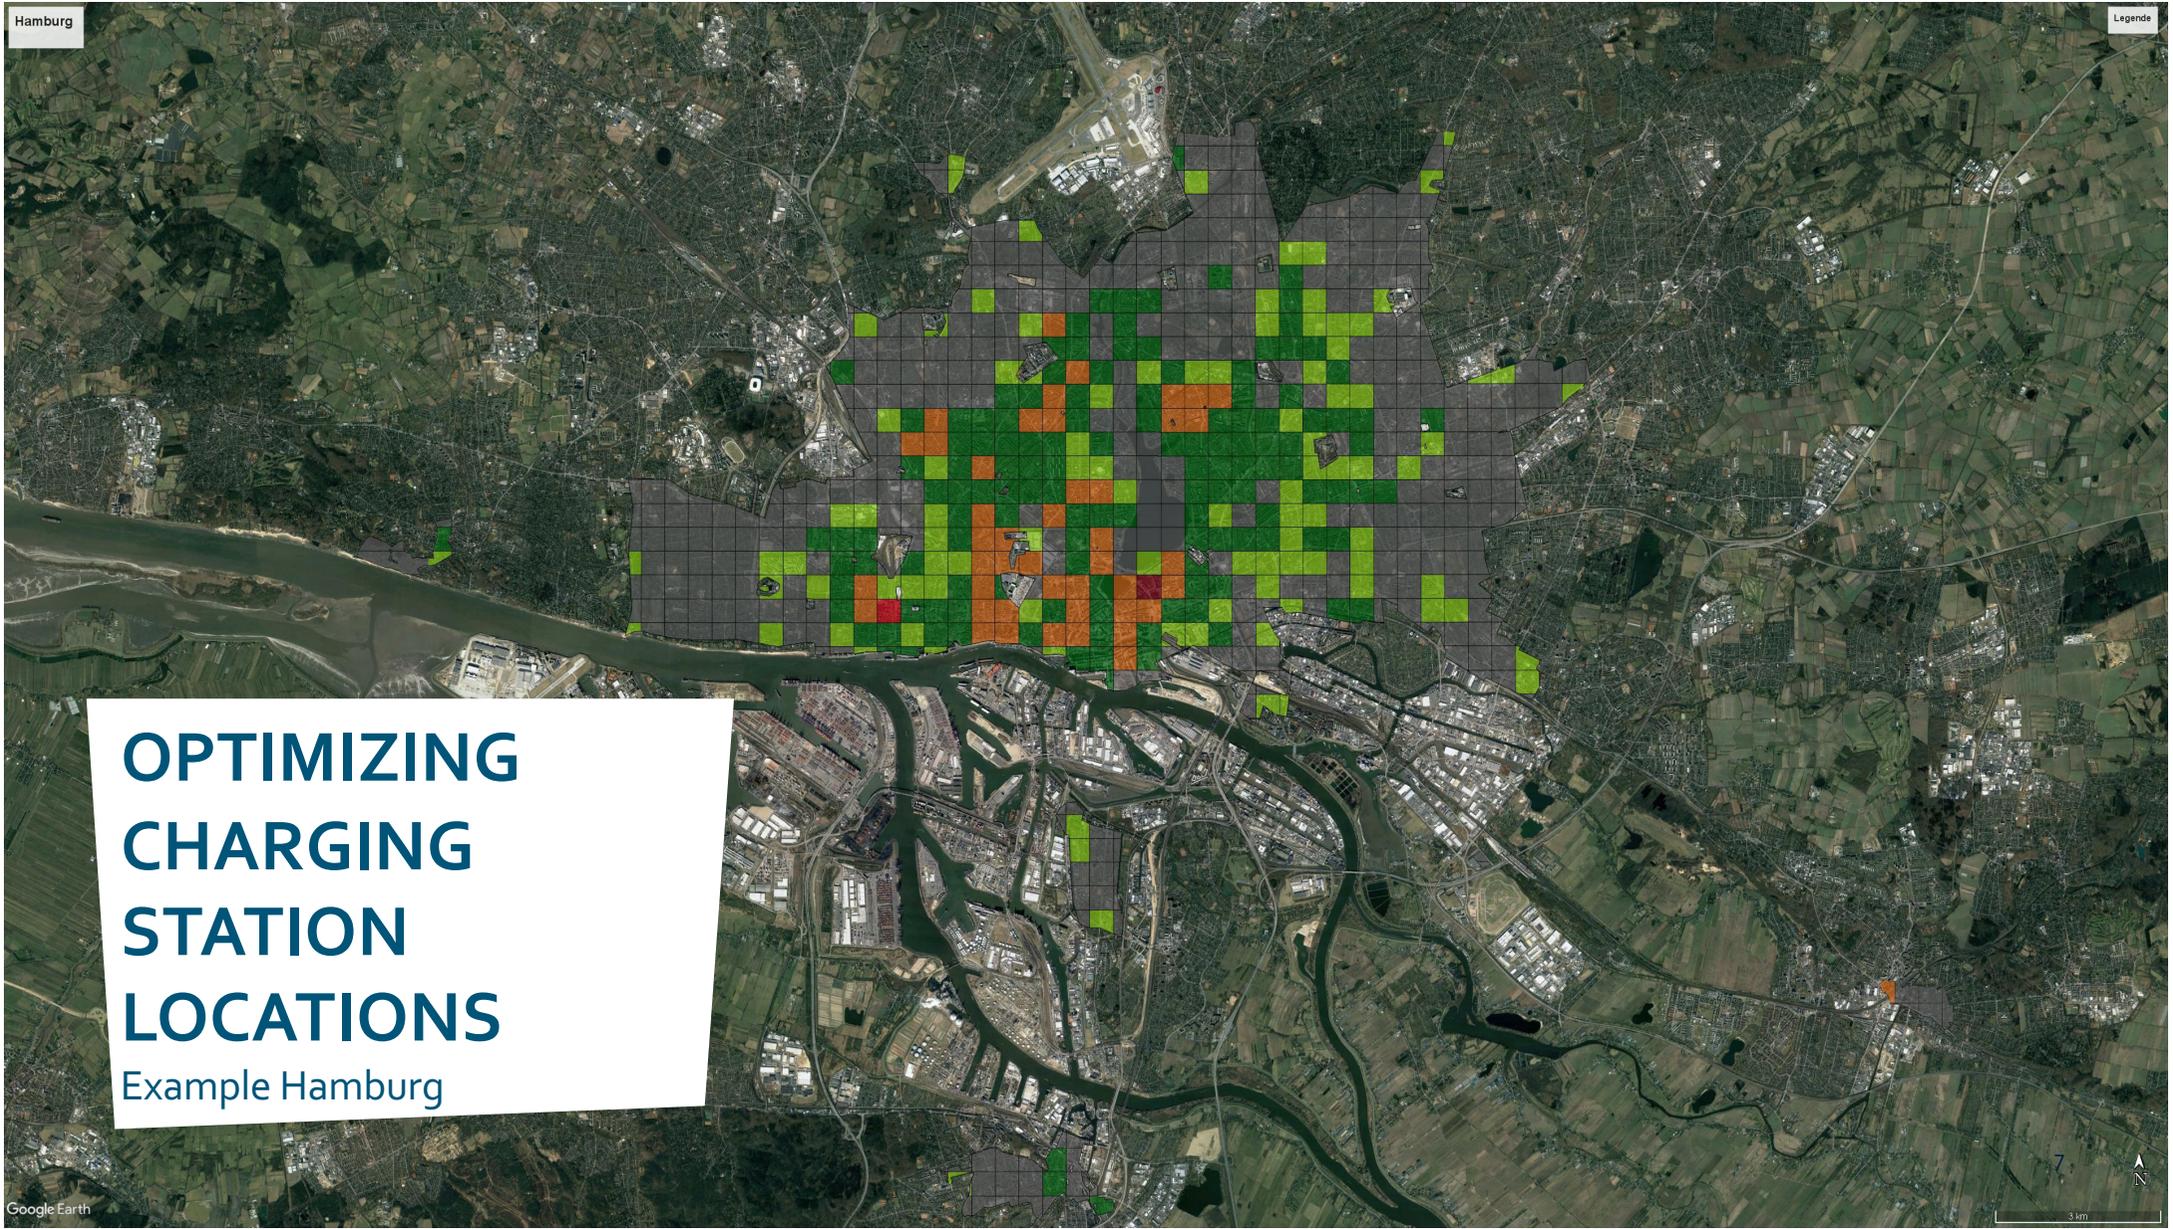

INFRASTRUCTURE

- **SHARE NOW** gathers important information about the flow of traffic within a city and the charging behavior of customers.
- As a result, we are able to provide expertise in the optimal positioning of charging stations and help cities to build up a reasonable charging infrastructure.

OPTIMIZING CHARGING STATION LOCATIONS

Example Hamburg

TESTING FIELD

- Electric mobility of the future needs a testing ground to be tried, improved and developed for everyday use.
- Our purely electric car sharing fleets offer an excellent basis for development and progression.
- Every electric trip with SHARE NOW serves as an high performance, everyday test of electric mobility.

An aerial photograph of a city park, likely Central Park in New York City, showing a dense canopy of green trees, a paved walkway with people, and a large equestrian statue in the foreground. In the background, a dense urban skyline with various skyscrapers is visible under a blue sky with light clouds. A large white rectangular box is overlaid on the left side of the image, containing the text.

ELECTRIC CAR SHARING IMPROVES THE QUALITY OF LIFE IN CITIES

THANK YOU.
